Product Pricing & Sales Mix

NovaPulse drives nearly 80% of total deal value (\$80.6M), while NovaEdge contributes \$20.3M but at a steep 54.6% average discount — nearly double the 29.1% discount on NovaPulse. This heavy discounting is eroding NovaEdge margins and may signal a pricing or competitive positioning problem. A pricing review for NovaEdge is recommended, along with targeted sales enablement in the East region, which trails at just \$19.5M in pipeline value.
